CAREER SUMMARY

Self-motivated and highly skilled self-taught developer with a BSc in Computer Science (2020-2024). Proficient in various programming languages and technologies through independent learning and hands-on experience in developing personal projects, including websites and applications. Adept at problem-solving, coding, and continually improving through self-study and practical application. Seeking opportunities to leverage my skills in a professional environment to contribute to innovative projects and grow as a developer.
